## WILL WED

Mr. W. J. Hockaday, Prominent Young Druggist of This City Will Wed Miss Margaret Morton of Greenup, Ky., On October 25.

Mr. William J. Hockaday, of this city, and Miss Margaret Morton of Greenup, Ky., will be married in the Presbyterian Church in Greenup, Ky., on October 25. The ceremony will be performed in the evening and will be followed by a reception at the home of the bride.

Mr. Hockaday is one of the most prominent young business men of this city. He has been in this city only a short time but since his start in business here he has made a host of friends. He is the son of Mr. I. B. Hockaday and is regarded by all as one of the coming young business men of the city. His success in the drug-store business at once placed him among the leading men of the city, which place he has held.

His bride is the daughter of the late James Morton of Greenup and is regarded as one of that city's fairest daughters. The romance between the couple has been going on for several years but none of "Doc's" Mayville friends suspected that he had thoughts of marriage.

The Ledger joins with his many friends in congratulating him over his coming marriage and one and all wish him a very happy and prosperous married life.

Several of the local stores have placed their Hallowe'en exhibits in their show windows.

## MEMBERSHIP CAMPAIGN

For the Woman's Missionary Council of the First M. E. Church, South, Has Been Planned—Open Session Sunday Morning in Local Church.

At the annual meeting of the Woman's Missionary Council of the M. E. Church, South, in 1915, plans were inaugurated for a Whirlwind Campaign throughout the church. Results were gratifying, the close of the year showing a gain of 1,112 auxiliaries and 27,079 new members. This still left much unorganized territory and at the annual meeting in Atlanta last April, continuance of the Campaign was voted.

The Kentucky Conference Society set the month of October for this special work and Mrs. Lipscomb, Home Base Secretary of Nashville, is now assisting the District Secretaries.

In all-day meetings at three different places in each district October 15 to 20, has been set apart by local auxiliaries for their part in the Campaign.

Sunday evening at 7 o'clock an open session will be held at the First M. E. Church, South, in which Adult Young People and Children's Departments will participate. This will be followed by a membership canvass during the week. A public meeting Thursday evening when Mrs. Lipscomb will make an address, and a representation at Shannon, the nearest neighborhood meeting Friday. Members of the church and friends are cordially invited to attend both evening sessions.

## AGED LADY

Mrs. Mary Eunice O'Donnell Dies at Her Home on Bridge Street Yesterday Morning at 8:30 O'clock Following a Stroke of Apoplexy.

Mrs. Mary Eunice O'Donnell died at her home on Bridge street yesterday morning at 8:30 o'clock. Mrs. O'Donnell was stricken with apoplexy on last Friday and she seemed to grow better the earlier part of the week, but Wednesday night she sank rapidly and the end came the following morning at the hour stated above.

Mrs. O'Donnell was born in County Donegal, Ireland, in 1839 and was consequently 77 years of age at her last birthday in August. She came to this country in 1862 and soon after to this city. The same year she was married to John O'Donnell, who preceded her to the grave twenty-four years ago.

Mrs. O'Donnell is survived by three children, Mr. Hugh O'Donnell of Chicago, Mr. Frank O'Donnell of this city and Mrs. Martin O'Hare of Chicago. Her dead children were Joseph and John O'Donnell and Mrs. C. F. McNamara. She also leaves a number of grandchildren. For the past several years she has had the care of her three granddaughters, Ethena, Mary and Eunice O'Donnell, daughters of the late Mr. and Mrs. Joseph O'Donnell.

Mrs. O'Donnell was a devout member of the St. Patrick's Catholic Church of this city and had always been in attendance at the services unless illness prevented. She was kind and considerate and her care of her orphan grandchildren fully proved her love for the unfortunate. Her sympathetic nature won for her many friends and her love for those near her was unboundless.

The funeral will be held Saturday morning at the St. Patrick's Church at 9 o'clock. Services will be conducted by Rev. P. M. Jones. The interment will be made in the Washington Cemetery in the family lot.

## PROMINENT CITIZEN DIES

Mr. John T. Willett died at the home of his brother-in-law, Mr. W. H. Robb, at Helena Station, yesterday afternoon about 5 o'clock of acute indigestion. Mr. Willett had laid down on a couch, not feeling well, and in a few moments died. He was born on June 27, 1851, and was 65 years of age. He was born in this county, being the son of Mr. John Willett. He was married to Miss Lucy Hord. He is survived by his wife, and two children, Mrs. John Harbeson of this city and Mrs. G. Horl-Willett of Huntington. He also leaves three sisters, Mrs. W. H. Robb, Mrs. C. Henry Darnell and Mrs. Bell-Brough all of the county. The funeral will be held Saturday morning at 11 o'clock from the home of Mr. W. H. Robb. Burial will be made in Flemingsburg.

## BOX SOCIAL A SUCCESS

The box social at the Limestone schoolhouse last night was a success. For some time the interior of the school room has needed a coat of paint, and the efficient teacher, Miss Bessie Bauer of this city, decided to give a box social, the money realized from the sale of the boxes to be applied to the painting fund, and the sale netted \$7.30. Miss Bauer has twenty-three pupils, and the patrons turned out and enjoyed the good things to eat. Several from this city attended and helped make the event a success.

## EDGEMONT SALE

The big sale conducted by the Bowman Realty Company of Huntington, W. Va., at Edgemont yesterday afternoon proved to be a great success from every standpoint. A great number of lots were sold in prices ranging from \$135 to \$665. The first lot offered was purchased by Mr. Harry W. Taylor for \$665. A number of valuable presents were offered during the day, the main prize, a lot, being won by Mrs. G. W. Royse of East Second street. ## WAS IT AN EARTHQUAKE?

Yesterday afternoon about 3:30 o'clock several of our citizens noticed a slight trembling of the buildings they were in. In the County Clerk's Office the windows rattled and the floor shook. Some of the wags remarked that it probably was a German Submarine coming up the Ohio. The trembling was noticed in various parts of the city.

## "The Home of QUALITY Clothes"

## News of Interest to Everyone

Nowadays we read a great deal in the papers about the high cost of woolens, the scarcity of dye-stuffs, and the rise in labor—which is all true, and must necessarily affect the price of clothes.

But we were one of the few houses in the Ohio Valley who were fortunate enough to have made the bulk of our fall purchase during the early part of 1916, which enables us to sell you goods at the same old price as you paid last year. Many houses are obliged to raise their prices, but we are not, and are going to give you the benefit of our early purchase.

All of our new Suits, Overcoats, Shoes, Hats and Furnishings are now in—all dependable merchandise, up to our high standard of quality—and the prices are no higher than last year.

COME IN AND LOOK AROUND.

## A POLICY OF SURRENDER

"The surest way to arrest or stop the rot of national character which has been going on for the past three years is to put the chief contributor to it out of office," declares Dr. Langdon C. Stewardson, in one of the severest and truest indictments of Mr. Wilson made public since that gentleman became a minority President.

Dr. Stewardson was born in Georgia, educated in Philadelphia, and passed through the universities of Leipzig, Tübingen, and Berlin, Germany. He was for years an Episcopalian rector, professor of philosophy at Lehigh University, and President of Hobart College. In 1912 he was for the election of Woodrow Wilson, but he is now against him. When a man of such peaceful pursuits is opposed to military by the spineless policies of the Great Vacillator, his opinions are worth considering. Dr. Stewardson says:

"The time has come, in my judgment, when it is the duty of every American who believes in Democratic institutions and the principles which inhabit and inspire them to register his solemn protest against the conduct of Woodrow Wilson and to do what in him lies to prevent his re-election.

"His foreign policy has been weak, vacillating and pernicious. Without criticizing this policy in detail, it may be briefly summarized as a policy which, in every critical emergency, has been a policy of surrender. So long as words alone were required, the smooth and polished periods of the President flooded the country and ran all over the world, but when the action of a man was needed none was forthcoming. When needs, no phrases were demanded, the Administration at once surrendered. It surrendered at Vera Cruz; it surrendered when Bernstorff publicly proclaimed in the New York Sun that severance of diplomatic relations with Germany meant war, and it has now once more surrendered to the brotherhoods.

"The effect of all these moral capitulations has been to undermine the manliness, the courage and the self-respect of this nation. Above everything else, the country needed in these trying times the tonic of moral leadership. Such leadership it has never had from Woodrow Wilson. We have submitted to the Lusitania, we have submitted to the brotherhoods, and we have done it that the people of the land might 'eat bread without seariness' and trade and play without hindrance and with the added conviction that this ignoble role of plating pacifism fulfilled the whole duty of man.

"Hence moral determination is everywhere. Coarse self-interest and love for material comfort are almost universally triumphant over patriotism and the heroic quality of sacrifice. The faith that anyone is intent upon anything beyond his own political or financial fortunes is practically gone. The country has been counseled to cultivate a cold-blooded neutrality in the face of the beastliest crimes the world has ever known and has furthermore been advised that with the causes and results of these atrocities we have no earthly concern. In short, we have been instructed to play for safety and our own bank account, to have no convictions that would bring us into conflict with any belligerent power, and so be ready to gather in the dollars and the trade of all contestants. In such an atmosphere as this the sense of national honor is stifled."

## THE PRICE

He kept us out of war!

And he has spent \$100,000,000 in doing so in the Villa episode alone. He is now spending from \$15,000,000 to \$20,000,000 a week. He has spent on keeping us out of war with Mexico altogether to date at least \$250,000,000. It is estimated that he will spend at least \$100,000,000 more.

Besides the lives: Vera Cruz, Columbus, Carrizal, not to speak of Santa Ysabel and the thousand minor butcheries which cause the total bloodshed of peace with Mexico to exceed the total casualties of the Spanish war of 1898. And then the outraged women, the ruined men, the plundered property, the insults, the sufferings of disgrace and discredit of it all in the eyes of the world.

What a price to pay in treasure, blood and honor! But he kept us out of war!—N. Y. Evening Sun.

## THE SHADOWS ON SHADOW LAWN

Every great cult has its pilgrimages. Mrs. Eddy and Madame Blavatsky, the Mahatmas of India and the Apostle of the New Freedom in America—it's a way they all have.

We have, in justice, known of Republican pilgrimages too. Rumor has it that delegations visited McKinley at a like critical time, till the porch fell in.

But we submit that all these pilgrims and pilgrimages we have mentioned lacked stage management.

It remains for this year of grace to see on Shadow Lawn along with Vane McCormick and "Young Democrats" and all the rest, a group of east-side women and children drawing nigh to thank the apostle of the New Freedom for his social legislation. David Blasco presents.

The farmer's view of the action of Congress in requiring railroads to pay certain employees a ten-hour wage for an eight-hour day is thus expressed by Henry N. Pope, president of the Association of State Presidents of the Farmers' Union: "I question the wisdom of Congress fixing wages of labor employed by private enterprises. If the government is going to fix wages for any one class of railroad employees, it should fix them for all classes, and if it has the power to increase wages it must also have the power to decrease wages. Today we find the highest-paid laborers in the world making three times more money than farmers, demanding a 25 per cent increase in wages, and Congress hastening to their relief." And the farmer, who pays the freight, pays the increase in wages.

Getting married is the easiest thing in the world. All that is required is a girl, a man, a preacher, a license and a little love. Go to it—and stick.

General Grant said: "Let us have peace." But he didn't add: "at any price."

## NEW YORK LETTER

(From Our Regular Correspondent)

**Submarine Sensation**—New York is all agog today over the exploits of certain German submarines which have sunk four British, one Norwegian and one Dutch steamer off Nantucket. In each instance warning was given and passengers and crews were permitted to take to the boats before their ships were sunk, and so far as known, all were subsequently rescued by revenue cutters and other vessels. Visions of what might amount to a blockade of American ports by trans-oceanic submarines are giving the horrors to all who are in any way connected with the export trade, and as the present prosperity is entirely dependent on such trade, practically everyone may be said to be so connected. That a continuance of this sort of interference with vessels sailing to and from American ports will come very near to causing a panic is freely predicted in financial circles. The President, who is at his summer home at Long Branch, almost within sight of the scene of the submersible campaign, is described as greatly worried over the situation.

**Mr. Perkins' View**—That President Wilson's failure to take any empathetic stand or to bring a logical close any of his negotiations constitute the immediate cause of the latest interference with American trade is the bold intimation of George W. Perkins. Mr. Perkins calls attention to the fact that when the last notes were exchanged with Germany she said she would suspend her submarine operations provided we would take up with England the blockade question. "President Wilson simply ignored this part of Germany's request," says Mr. Perkins, "and I have ever since been expecting that Germany in due time, pressed hard enough by her necessity, would return to submarine warfare and plead in her defense that we had failed to comply with one of the conditions she had made. Certainly, there is no one left now who can say that we enjoy splendid isolation because of the oceans that separate us from other countries. A submarine fighting machine has proved that we can be attacked successfully without warning and great damage inflicted within the twinkling of an eye. Well informed men have known this for a long time and the most inexcusable thing of all the inexcusable things of the Wilson administration has been its failure through the last three years to prepare us for the new conditions which modern inventions have developed. This is not only true of war at arms, but war in industry, for we are as unprepared for peace as we are for war."

**A Woman's View**—It is doubtful if any man has explained his reasons for supporting Mr. Hughes with such clear, convincing logic as characterizes the statement of Mrs. Nelson O'Shaughnessy, whose husband was Acting American Ambassador to Mexico during and for some time before the seizure of Vera Cruz. Mrs. O'Shaughnessy says, "I am for Hughes because with my own eyes I have seen the destruction of a nation; with my own ears I have heard the cries of that bleeding, agonized remnant of what three years ago was the Mexican people; I have seen, under the auspices of the Democratic administration, organized government destroyed in a sovereign state—whose greatest misfortune at this time is to be our neighbor. I have seen authority destroyed as certainly as if we had taken the machinery of administration into our physical hands and broken it. And in regard to all this I have seen installed an organized campaign of misrepresentation where the wrongs of this sister nation are concerned—whereby the cries of the people have been stifled, their agonies concealed, their rights—their human rights—trampled to earth. I have seen the House of God profaned, the ministers of Christ cast into ignominy, holy women defiled. And last, but not least, I have seen our citizens, whose right to protection there is as indisputable as that of the sons of England, Germany, France, Spain, Japan, repudiated of the fruits of honest labor. Our women have been outraged, our children tortured, our men left to lie in their blood. Now, with the help of God, and confiding in the underlying greatness of our nation, I hope for the vindication of our honor where other nations are concerned—and the performance of our duty where our own people are concerned. I am for Hughes—because I believe a man has arisen who, as Chief Executive, will safeguard our most precious possession on land and sea—at home and abroad—our national honor."

**Useless Waste**—Because President Wilson was "too proud to fight" and because he regarded those who advocated adequate preparedness for self defense as "hysterical," there has occurred the greatest possible waste of public funds, of individual energy

THAT BOY OF OURS MUST BE GETTING ALONG FINE SINCE GOING INTO THE EXCAVATING BUSINESS. THIS PAPER SAYS HE'S JUST MADE ANOTHER RAPID RISE!

and opportunity and the most serious sacrifice of individuals. Because, until he had been convinced by other Democrats that it was politically expedient to advocate preparedness, Mr. Wilson persisted in shutting his own eyes and trying to shut those of the public regarding conditions in Mexico, there are now on the border, under arms, approximately 150,000 national guardsmen whose place, if there is no war, is at home, following their normal advocation and supporting their families. The loss to them of this service is a total loss. There will be no opportunity to recover that which they have lost because Mr. Wilson's lack of sincerity and foresight made necessary their performance of that police duty which should devolve upon the regular army. There will be no compensation to their wives and children and dependent mothers for the privations they have suffered because their natural supporters were called upon to do this work. The cost to the government, and therefore to the whole people, will be enormous. Already it has cost not less than \$125,000,000. This is the price—a part of the price—the people are paying for Mr. Wilson's war with Mexico. During the month ending September 23 last, 372 men were recruited in New York State to fill up militia regiments. The cost of this recruiting was \$25,000 or about \$70 per man.

**Roosevelt at Wilkesbarre**—Ex-President Roosevelt, who appointed the Anthracite Coal Strike Commission and forced the owners of the Pennsylvania coal mines to accept arbitration of their controversy with their employees, has decided to go to Wilkesbarre, on Saturday, October 14, and there explain to the very miners who were the beneficiaries of his insistence on arbitration, how President Wilson sacrificed the principle of arbitration when he took his stand against arbitrating the demands of the Railroad Brotherhoods, how he has injured the cause of organized labor, with the possible exception of the members of the Brotherhoods, and how their advantage is merely temporary, because Mr. Wilson has by his course taken negotiations regarding all questions affecting the conditions of labor from the unions and the employers and established the precedent for fixing them by legislative enactment. He will show that the inevitable tendency of Mr. Wilson's course is to reduce the labor unions to mere insurance agencies and that this is a backward step for organized labor. As Mr. Roosevelt's friendship for labor has been substantially demonstrated, his interpretation of the Adamson bill in what may be regarded as the home or arbitration of labor controversies is bound to be awaited with the utmost interest.

**To Speak on Border**—Col. Roosevelt purposes to journey all the way to the Mexican border and at the little town of Gallop, New Mexico, to discuss "How President Wilson Got Us Into War." So vital to the interests of the country does Mr. Roosevelt regard the election of Gov. Hughes that he is determined to let no consideration of his personal convenience interfere with his doing everything possible to promote that end.

**WHEN TOADS GET NEW SUIT**  
Toads change their skin periodically. It is a most interesting performance, says a writer in the National Review. The old skin splits right down the back, and the toad proceeds to divest himself of it in exactly the same fashion as a human being takes off a jersey. The old skin, as it is pulled off, is rolled toward the reptile's mouth, where it disappears, for it is swallowed.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. WHEAT FOLLOWS CORN

In putting corn ground to wheat it is well to remember that the supply of available plant food in the soil has been largely depleted. The practice of supplying two or two hundred and fifty pounds of acid phosphate to the acre is to be recommended, especially where no manure is available.

The phosphate fertilizer will help give the wheat crop a start in the fall that will not only enable it to get a stronger growth that will tend to prevent winter killing, but this more vigorous growth will also enable the wheat to resist the attacks of the Hessian fly.—Farm Life.

## DEMAND WAS NOT FOR EIGHT-HOUR DAY.

"It is said that the Judgment of society has made the demand for the eight-hour day. This was not an eight-hour day, and the judgment of society had nothing to do with the proposition laid before Congress and passed by Congress. The proof of this is found in the bill itself, which proposes an investigation to find out whether Congress had any business to do the thing which it was asked to do, and which it did do."—Mr. Hughes in His Speech at Portland, Maine.

## DYSPEPSIA OF WOMEN

Special Treatment Required.

Many women suffer from a form of indigestion or dyspepsia which does not yield to ordinary treatment. While the symptoms are similar to those of ordinary indigestion, yet the medicines usually prescribed do not restore the patient's normal condition.

There seems to be a kind of dyspepsia caused by derangement of the female organism. While this appears to be the same as ordinary indigestion it can be relieved only by a medicine which, besides acting as a stomach tonic, is good for female ailments. Read what such a medicine did for Mrs. Williams:

She says: "Before I began taking Lydia E. Pinkham's Vegetable Compound I was troubled with dyspepsia and bearing down pains in my back and sides, and after my meals my stomach would bloat up till I could scarcely get my breath. At times I was so weak I could hardly stand on my feet and I looked hollow-eyed and my skin was yellow. Now I have a good color, have gained in every way and can do my work without any pains. I think it is the best medicine on earth for stomach troubles of women."—Mrs. NELLIE WILLIAMS, 81 West 3d Street, New Albany, Ind.

Yield 29.8 Bushels.

Frankfort, Ky. October 11.—The crop report issued today by the State Department of Agriculture follows:

The crop report as of October 1, is rather difficult to summarize as it is almost entirely preliminary estimate on the results of this year's products and the acreage for next. The corn is not all gathered. The silos are all not yet filled. Most of the tobacco crop is housed, but not all of it. Not a great deal of wheat has been sown and while some progress has been made this past month in the seeding of wheat, rye and barley, much of the fall seeding has been delayed. Especially so is this of wheat. Many of the farmers hope for this late sowing to avoid the ravages of the Hessian fly. Early sown wheat is more liable to become infested with this fly. The price of seed wheat is very high and this will likely cut the final acreage of fall wheat sown.

The facts ascertained by the department at this time are as follows: the preliminary estimate of wheat sown is 84 per cent, rye is 87 per cent and while but little barley is raised in Kentucky the estimate on that is given at 88 per cent. The estimated yield of corn per acre is given as a State average of 29.8 bushels. Hemp is estimated at 996 pounds an acre.

The tobacco crop is good and 90 per cent of same is reported housed and most of it curing well. Some of the late tobacco is not curing so well. However, the crop is of unusual color, texture and quality. It is estimated that Burley tobacco will yield 919 pounds an acre and dark tobacco will yield 851 an acre as a State average. This is an unusually high estimate and runs about 78 and 77 pounds an acre respectively heavier than last year's report.

The Irish and sweet potato crops are reported poor generally throughout the State, the average yield of Irish potatoes being estimated at 73 bushels an acre and of sweet potatoes 79 bushels. Late garden conditions are poor.

The condition of live stock is reported good.

The report of grasses in different sections vary and taken as a whole are in good condition, bluegrass being given at 87 per cent, clover 87 per cent, while orchard grass shows at 91 per cent and alfalfa at 88 per cent.

The third crop was cut very short by the dry weather. In some localities it is reported the fourth cutting will be ready in a few days. Much of the crimson clover was killed out by the late drought.

Now is the time for the farmer to put in some clover crops if he has not already done so. Rye, barley or winter vetch will prevent washing of the land and retain the fertility also. Reports show a large increase in the numbers of farmers who are using limestone and rock phosphate with good results. It is cheaper to raise fertility than to buy it.

Respectfully submitted,  
MAT S. COHEN,  
Commissioner of Agriculture.

## DR. MANN

Episcopalians—Massachusetts Bishop Again Chosen President of the House of Deputies.

St. Louis, October 11.—The Rev. Dr. Alexander Mann, of Boston, Mass., was re-elected president of the House of Deputies of the Protestant Episcopal General Convention here today. He was opposed by the Rev. James E. Freeman, of Minneapolis, Minn.

The vote was 243 to 103. Later the election was made unanimous.

Dr. Mann was born in Geneva, N. Y., December 2, 1860. His first ministry charge was St. James' Church, at Buffalo, and in 1887 he became assistant minister of Grace Church, Orange, N. J. In 1896 he was appointed deacon of Newark. In 1905 Dr. Mann was elected rector of the Historic Trinity Church, Boston. He was elected bishop of Washington in 1908 and suffrage bishop of Newark in 1915, both of which positions he declined.

Dr. James McNaughton, rector of Elyria High School, Constantinople, at a mass meeting tonight described the conditions of American Christians in Turkey as comprising the darkest page in Christian history, and said that more than a million native Christians in Asia Minor are facing death from starvation and exposure.

"Before the war there were in Asia Minor about one and three-quarters million Armenians and since that time, according to the most moderate estimates, 750,000 have been destroyed through torture and deportation," he said. "They were driven from their homes at points of bayonets to destit-

utions so far away that they were not expected to reach them alive."

Notes giving the result of the world's series ball game were passed among the delegates in the House of Deputies this afternoon. The Massachusetts delegation manifested much enthusiasm. Rt. Rev. William F. Faber, Bishop of Montana, announced the score to the House of Bishops.

The Rt. Rev. Thomas F. Galler, of Memphis, Bishop of Tennessee, was elected chairman of the House of Bishops, succeeding Bishop Boyd Vincent, of Southern Ohio, who has served the prescribed six years.

## TOO DANGEROUS TO OVERLOOK

Mayville People Will Do Well to Heed the Warning.

To have good health, the digestion, heart, lungs and kidneys must work perfectly. When there is anything wrong with the digestion, heart or lungs a very noticeable pain or distress gives prompt warning. Kidney trouble is more easily overlooked, however, and too often gains a long start. But kidney trouble does give early signs, and backache, headache, dizzy spells, rheumatic pains, too frequent, scanty or painful urination should not be neglected. When these warnings appear, use Doan's Kidney Pills, the reliable, successful, strongly-recommended kidney remedy. Assist the medicine by taking things easier, reducing the diet and the use of liquors. A severe attack of kidney disease may be avoided. Doan's Kidney Pills have won the grateful praise of Mayville people. Read this Mayville residents' endorsement.

W. F. Lynch, 127 W. Third St., Mayville, says: "My kidneys were weak and the passage of the kidney secretions were scanty and painful. Having used Doan's Kidney Pills before, I again got a box. They quickly restored my kidneys to a normal condition."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lynch had. Foster-Milburn Co., Provo, Buffalo, N. Y.

## RECORD CROWD SEES SOX WIN

Clean-Cut Victory Over Brooklyn  
Keeps Baseball Championship in  
Boston—Series 4 Games to 1—  
Dodgers Unable to Hold  
Lead in Final Games  
With the Hub  
City Team.

Boston, October 12—The Boston Americans firmly clamped the championship laurels of the base ball universe upon their brows here today when they defeated the Brooklyn Nationals by a score of 4 to 1 in the fifth and final game of the world's series. The greatest gathering in the history of the American national sport witnessed the victory, 42,020 fans departing after the contest convinced that the Red Sox were the best ball machine par excellence of recent years.

As a result of the four games to one conquest over the Standard bearers of the National League, Boston is tonight celebrating its fifth victory of the world's series since 1903, and there is added joy in the fact that never in its history has the Boston team been forced to bow to the superior prowess of a rival in such combat.

The victory over the Superbas in the final meeting of the teams was so clean cut and decisive that there was left no ground for argument. That the better team won the championship despite the determined battles put up by Brooklyn in the earlier games of the series was obvious. Before the speed and curves of Ernest Shore, of East Bend, N. C., the Superbas were well nigh helpless while Jeff Pfeffer, the last hope of Brooklyn, proved unequal to the task of holding the Red Sox in check.

The attendance for the five games this season amounted to 162,359 and the receipts were \$385,590.50. Of this sum the players received \$162,927.45; each club \$92,052.02, and the National Commission \$38,559.05. The Boston club as winners divided \$97,756.47 on a basis of twenty-five shares which the players are understood to have agreed upon as the method of apportionment. This would allow \$3,310.26 a share. The twenty-three Brooklyn players as losers divide \$65,170.96 into equal shares of \$2,834.82 each. Owing to the fact that there are more players to share in the winner's money this year the individual share is not a record.

### BIG EXCURSION

The game between the Maysville Regulars and the Shannon team for Sunday has been called off. Instead the Regulars will play the fast Augusta team on the local grounds. The Augustans will make a great trip. They will come to this city escorted by about 200 bugs of that city and also by the Augusta band. The trip will be made on the steamer Chilo. A great time is expected and a large crowd will be out to see the local boys bring in the bacon.

Mr. and Mrs. George Clephane moved yesterday from West Second street to their recently purchased home on Limestone street. The house was bought from Mrs. Fannie Glascock and is a very desirable location.
